Columbi..	2,891	268	93

Note: Totals include Confirmed and CDC Expanded Case Definition (Probable)

All data displayed is preliminary and subject to change as more information is reported to ODH. Trends are based on the date of illness onset. If onset date is unknown, the earliest known date associated with the case is used as a substitute for the date of illness onset.

*Preliminary case data in the shaded area is likely under-reported to ODH because of the delay between initial contact with a health care provider, testing, and diagnosis.

**Definitive cause of death can take weeks to determine. Data displayed illustrates current status.

*** Presumed Recovered is defined as cases with a symptom onset date >21 days prior who are not deceased.
