Our Mission

Improve the quality of life by promoting healthy lifestyles, preventing disease, and protecting the people we serve.

Our Vision

Safety and good health for the people of our community

Our Values

Quality: We are dedicated to maintaining a standard of excellence in providing public health services by continuous quality improvement.

Collaboration: We are committed to being a supportive and communicative team member to our community partners by fostering positive relationships and optimizing our combined experiences and expertise.

Integrity: We hold ourselves to high ethical standards in all our actions and relationships.

Respect: We treat everyone with equal value, dignity and compassion.
